## INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.  
PCT/EP 03/04190**V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. Statement**

Novelty (N)	Claims	1-10	YES
	Claims		NO
Inventive step (IS)	Claims	1-10	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-10	YES
	Claims		NO

**2. Citations and explanations**

1. DE2552729, which is cited by the applicant, describes a universal joint hinge with two joint arms and a damping device.

The subject matter of claim 1 differs from this universal joint hinge in that one arm is composed of two sections that can be displaced longitudinally relative to each other and the damping device is provided between these two sections.

The subject matter of claim 1 is therefore novel within the meaning of PCT Article 33(2).

2. This new design gives rise to a compact and lightweight-constructed universal joint hinge with an integrated damping device.

The subject matter claim 1 therefore involves inventive step within the meaning of PCT Article 33(3).

3. Claims 2 to 10, which are dependent on claim 1, also meet the requirements of PCT Article 33(2) and (3).
